– The MAILING DATE of this communication appears on the cover sheet with the correspondence address –  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### DETAILED ACTION

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

The added claim has been numbered claim 21. Note also, -- Claim 21 (new) -- has been inserted before the claim in accordance to the revised amendment practice, 37 CFR 1.121. See

<http://www.uspto.gov/web/offices/pac/dapp/opla/preognotice/fmoreinfoamdtprac.htm>.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 16-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Preston in view of Smith et al. Preston discloses the claimed invention except for carbon monoxide alarm. Smith et al. teaches that it is known to provide a system for controlling make-up air apparatus in conjunction with the operation of an appliance with a carbon monoxide detector as set forth at column 5, lines 46-54. It would have been obvious to one having ordinary skill in the art at the time the invention was made to provide the combustible fuel burning system of Preston with the carbon monoxide alarm, as

taught by Smith et al. in order to prevent carbon monoxide build-up within the building space.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 21 is rejected under 35 U.S.C. 102(b) as being clearly by Preston.

***Claim Rejections - 35 USC § 112***

6. Claims 16-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Steps in a method claim must be in verb phrases; such as, “providing a roof...”, “providing a carbon monoxide alarm...”. Regarding claim 16, the phrases “such as” and “preferably” render the claim indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention. See MPEP § 2173.05(d).

***Election/Restrictions***

7. Claims 1-15 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on February 28, 2005.

**Conclusion**

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

9. In response to this Office action, applicant should include arguments under the heading "Remarks" pointing out disagreements with the examiner's contentions.

Applicant must also discuss the references applied against the claims, explaining how the claims avoid the references or distinguish from them.
